

Baby splash 0-4

Baby Splash sessions are for babies & children up to 4 years of age. They are designed for parents/guardians to spend time in the water to increase children's water confidence in a structured fun/play session. Please consult your health visitor about the right time to start.

- Games
- Songs
- Show safe entry with assistance – turn, turn, turn and put hands on the wall
- How to support your child's movement in the pool
- Splash near child's face and play with water together
- Blow bubbles
- Wash/wet face
- Bounce up and down with child submerging shoulders completely
- Support child (front) whilst moving in different directions
- Underwater confidence, starting with washing faces and blowing bubbles.
- Progressing to floating and performing push and glides between the parent and teacher.
- Float supported (front) for 2-3 seconds

Baby splash certificate and badge

- Show safe entry with assistance, turn, turn, turn and put hands on the wall
- and exit with assistance
- Support child movement around pool
- Splash near child's face and play with water together
